Dear Charles- I just wanted to tell you that I could not have done this without you! When you called to tell me that an offer was made on my home I was in complete shock! The turn around time was very quick and you were right by my side with every step. If anyone is considering NOT using your negotiation services... PLEASE have them contact me! You are the best and I truly believe that I would have not made it to closing without your help. My very best wishes to you in all of your future endeavors.

We thank you from the bottom of our heart!
